Hobbies

I like to develop my own projects, go to the gym, hang out with my friends, and travel.

Profile

Dynamic and results-oriented Frontend Developer with seven years of hands-on experience in crafting seamless user experiences.

A collaborative team player with a proactive mindset, I thrive in dynamic environments where innovation and teamwork are paramount. My expertise lies in Angular, React, and Next.js, and I am dedicated to leveraging my skills to contribute to a forward-thinking company. Eager to share my knowledge, I am committed to continual learning and growth as I contribute to the success of a driven organization.

Employment History

Frontend developer, Seedtag, Barcelona

JUNE 2024 – PRESENT

- Spearheaded the development of new features for the "Lizos OS" application using React and Turborepo.
- Implemented a monorepo architecture, resulting in improved code organization and development efficiency.
- Led a significant code decoupling effort, reducing code duplication and enhancing maintainability.
- Developed a new application for public sharing of "Lizos OS" components from the ground up.

Frontend developer, Wallapop, Barcelona

JUNE 2022 – JUNE 2024

- Create and implement new website sections, and functionalities for the primary company website using Angular, NextJS (React), and Twig, while also enhancing the back office system with Angular, rxjs, jest and ngrx.
- Conducted A/B testing initiatives to optimize user experience and performance.
- Ensured ongoing maintenance and improvement of existing features in production, including adapting them for new country expansions.

Frontend developer, InTact, Barcelona

FEBRUARY 2021 – JUNE 2022

Create and develop multiple projects for our clients, with Angular, Jest, ngrx, rxjs and Jasmine.

Frontend developer, Onebox, Barcelona

JULY 2021 – FEBRUARY 2022

Front end Developer, Crealogix, Barcelona

JUNE 2020 – JULY 2021

I am currently in charge of the development of a mobile banking app for the Arab Emirates. My tasks are to develop the code, review the merge requests from my teammates, and perform releases using Jenkins, at certain times I am also managing the issues reported by the client in Redmine.

Front end Developer, SlashMobility, Barcelona

MARCH 2019 – JUNE 2020

My tasks were to develop different applications in angular and ionic. Some applications were carried out by me alone (doing the sprints, deliveries to clients, face-to-face demos, and hour estimates), other developments were in a team and I only developed. We always used scrum methodologies.

Full Stack Developer, Setting Consutoría, Barcelona

SEPTEMBER 2017 – MARCH 2019

- Developing a web application for the ICO (Ontological Institute of Catalonia), specifically for the early detection program for breast cancer. It is an application that takes all the management of tests, citations, results of visits, and treatments of women at home to find a tumor in Catalonia.
- We developed the accounting base, employee hour management, company expense calculation, and our own ticketing tool to be able to perform the Springs for Scrum.

These projects have been carried out with the company's own framework based on JSF (Primefaces), CSS, and JavaScript for the front-end part, and JPA, Hibérnate, CDI and Java 9.

Intern Front End Developer, Kuvut, Barcelona

JANUARY 2017 – APRIL 2017

I was in charge of redoing the company's website, it was made from scratch because the one they had was not responsive. The technologies I used were HTML, JavaScript, and CSS, with HAML (for html), CoffeScript (for JS), and SASS (for CSS) processors.
